# The Annual Financial Report

The Annual Financial Report (AFR) of the City of Greensburg, Kentucky, for the fiscal year ended June 30, 2012, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rest with the City's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The AFR is presented in two sections: introductory and financial. The introductory section includes this transmittal letter and a list of principal officials. The financial section includes, under the new Governmental Accounting Standards Board Statement No. 34 as amended, Management's Discussion and Analysis, the Report of Independent Accountant, the basic government-wide financial statements, and the required supplementary information.

The City of Greensburg is located in Green County, Kentucky. The City is a home rule municipal corporation organized on December 4, 1794, under the laws of the Commonwealth of Kentucky, and as such, operates under its own charter. The City government consists of a mayor and six (6) city council inembers. The mayor serves a four (4) year term. Council members serve a two (2) year term. The mayor and the city council members are elected on an at-large basis.

For financial reporting purposes, the City includes in this report all funds, agencies, boards and other commissions that are controlled by the City or dependent on the City legislative branch. "Controlled by" or "dependent on" is determined on the basis of the budget adoption, taxing authority, outstanding debts secured by revenues or general taxing authority of the City, and the City's obligation to fund any deficits that may occur.

The City provides a full range of municipal services. These services include fire and police protection, recreation programs, and a water and sewer system.

Robert C. Ryan, Certified Public Accountant, audited the financial statements and the related notes of the City of Greensburg, Kentucky. As stated in the auditor's report, the audit was conducted in accordance with Generally Accepted Government Auditing Standards as accepted in the United States of America, and included a review of accounting controls (as required by state law).

We wish to acknowledge the employees of the City of Greensburg who are the City's most valuable asset. These individuals serve productively throughout City operations. They continuously provide quality services to the citizens of Greensburg, Kentucky.

Respectively submitted:

George C. Cheatham, II, Mayor

Janie Casey, City Clerk/Treasurer

## **Conclusion to Financial Highlights**

The City of Greensburg turned in a solid financial performance for the fiscal year of 2011, considering the overall economic environment we find ourselves. We continued our recent history of growing the overall net asset value of the community. This has happened mainly due to the increased flow of grant proceeds as well as donated assets to the community we have enjoyed over the past 10 years. Over the past ten years, the City of Greensburg has seen its total net asset value more than double from just fewer than three million dollars in 2003 to over 7 million today – 14.72% in 2012 alone.

However, going forward - given the projected explosion in pension, insurance and utility cost -the City will have to focus more attention to managing our cash flow, prioritizing and thinking outside the box when it comes to looking for ways to cut cost and increase revenue opportunities, if we are to continue growing and improving our community. These issues will only be exacerbated by the fiscal crisis being experienced at both the federal and state levels.

# Non-Financial Highlights

Our continued focus on overall community development as an economic strategy has continued to prove successful. Currently, the City has accumulated nearly \$7 million in committed grant and loan funds for community projects such as a new Water Treatment Plant, a new Fire Department facility, a Post-Secondary Education Facility, Community and Senior Center, Fitness Trail and several smaller projects. This will help to continue our efforts at building a "Livable Community" that can be marketed to new business and industry, tourists as well as new residents.

We are continuing to see the benefits of this strategy as we see more and more investment into our community, with several new businesses opening, increased redevelopment efforts and a continued demand for commercial space. The completion of the new road through the Industrial Park has opened up new developable property and created increased interest in the community. Greensburg saw the completion and opening of the new Dollar General Market in 2012 along with the other businesses such Longhunter's Coffee and Tea Co., and the new Health First Pharmacy facility.

As I continue to caution, the process of community development is by its very nature a slow process and will have to be given time to work over the long term. The economic recession and now recovery have played a significant role in this process. While it has made it tough on everyone individually, it has opened up some opportunities for our community that we have been able to take advantage of and over time put us in a much better position to compete than we were even before the "Great Recession" took hold in 2008.

# <u>Future Events</u>

The City currently has several projects in different stages of development or construction. The first is the construction of a new Community Safe Room and Fire Department Facility, which should be completed sometime in mid-spring of 2013. Also, we are in final negotiations with the apparent low bidder for the renovation and construction of the new Greensburg Community and Senior Citizen Center. Final work will be completed this spring on the new Greensburg Disk Golf and Fitness Park located at the former Clark Casual site. The City and County along with the students of the Green County High School FBLA

Financial Audit As of the Year Ended June 30, 2012 Management Discussion and Analysis

Club are working to develop and implement a community wide recycling program which has already taken in over fifty tons of recyclable material to date – the first legitimate try at a sustainable community recycling program in Greensburg.

The City, with the help of the County, is waiting on one last piece of the proposed funding package in order to bid the new two million gallon per day Greensburg Water Treatment facility. With that in place the next phase would be to bid the project and then move into construction with a goal of final completion sometime in early 2015.

Other potential projects being explored are expansion of the Green River Paddle Trail facilities to include public bathrooms and an open-air pavilion, a Post-Secondary Educational facility in cooperation with bot the Green County Board of Education and the Green County Area Technology Center to allow for online class work and to provide for streaming live video instruction as well. Also involved in the project are Elizabethtown Community and Technical College, Lindsey Wilson College, Campbellsville University, and the Green County Adult Education Center. We currently have a commitment of \$200,000 in ARC funding for this very important project. The City is also in the preliminary stages of outlining phase one of a community "Greenway Belt" which will provide an opportunity for the community to walk, run or bike our community both for exercise as well as to provide safer pedestrian access.

The City is also working on rolling out a new up to date and more user friendly web site along with a new "Community Guide" that will also be used in a digital format. Also, having completed both a new community strategic plan with the help of the Kentucky League of Cities, as well as a new policy and procedure manual, we have moved on into codifying the City's ordinances for the first time in nearly 30 years and drafting new employee job descriptions and pay scales as required by Kentucky law. Again, all of these will be made available on the City's new web site along with copies of our monthly financial statements.

All of these projects will depend on various funding sources as well as building strong partnerships with other public and private agencies. However, each is very important in building the type of community infrastructure we need to attract quality business prospects and providing opportunity for our residents. All of these projects will continue to push the City's resources to supply adequate infrastructure as well as regulatory enforcement required to manage these new growth issues. It will be very important that the City manages these issues well from the start or we will create larger issues and problems for the community later on down the road.

# **Conclusion**

As of this writing, the current conditions surrounding the world, the nation and the State's economy are continuing to see positive signs following the worst recession in generations. To what degree that will benefit the City of Greensburg will depend on our willingness to do the things necessary to compete with our neighbors and the rest of the world to attract and create jobs. At this very important time the City will also have to contend with the growing demand for increased services by our residents, the business community, not to mention the ever-increasing unfunded mandates passed down by both the Federal and State governments.

# Financial Audit As of the Year Ended June 30, 2012 Management Discussion and Analysis

However, I am reminded of the famous quote, "Society is not built on a level". We must continue to focus on our plans for building and improving our community, now more than ever. Other communities are working to move forward, which means we have to work that much harder if we want to improve our standing against our peers.

I do believe both the financial future and the overall future for Greensburg is solid, provided we continue to plan and manage our assets in a conservative manner and focus on our opportunities and our strengths. Given the economic conditions described above, Greensburg may only have a narrow window of time to make significant progress in creating the self-sustaining economic opportunity for our residents we all want. Therefore, it is more important than ever that our community continue to come together and work with a common vision and purpose. There are many forces working both for and against us in the world today. Most are out of our control. We must continue to focus on the ones we can control and take advantage of the opportunities created by the ones we cannot. We can be either our own worst enemy or our own best friend; it is up to each of us.

As always, the City of Greensburg looks forward to working toward the brightest future possible for our residents and our community!

Sincerely,

George "Lisle" Cheatham, II Mayor City of Greensburg

# Financial Audit As of the Year Ended June 30, 2012 Management Discussion and Analysis By Mayor George "Lisle" Cheatham, 11

Over the past several years we have continued to see signs that our Community Development strategy is continuing to deliver positive benefits for the community and this year was not different. We are seeing not only continued efforts at new residential development but commercial development as well within the city. We have seen new businesses not only open in our downtown area but also in the outlying areas of town as well. The City's redevelopment efforts have been a key factor in these positive developments. By investing in ourselves, it makes it much easier for others to invest in us!

When viewed in the backdrop of the current overall economic condition of the country, we should be very encouraged by our successes. However, the continued high unemployment rates, not only in Green County but also across the State as well as the United States, continue to be the biggest issue we face as a community. Our efforts at improving post-secondary educational access in the community, along with our continued active marketing of the community and region, are key to addressing this issue.

As I write this MD&A it is mid-January 2013, the national economy is still continuing to recover from what has become known as the "Great Recession". While the private sector continues its recovery, the financial effects on Federal, State and Local Government will continue to be felt for several years to come. "Local Governments" are faced with rebuilding their "tax bases" while maintaining an ever more expensive organization and infrastructure. Greensburg has and will continue to be no different. While we have fared much better than other communities when it comes to the stability of our revenue streams, we are not immune to all the increased operational costs and unfunded mandates being passed on by both the federal government and the Kentucky State Legislature. With the Federal Stimulus money now a distant memory, the next several years will be even worse as the State continues to pass on the cost of government to the local level in an effort to clean up their books.

As warned in the past few audit reports – including the very first paragraph of last year's audit report – the window of financial opportunity for the City is quickly shrinking. The cushion provided by the implementation of the Occupational & Business License Tax at the beginning of the decade continues to be eroded by increased day to day costs of operation – most of which we have very little, if any, control over – such as pension costs, employee benefit costs, utilities and insurance. Utility cost alone are projected to increase by 26% over just the next four years. To put that into perspective this means Greensburg will face an increase of over \$72,000 per year between now and 2016 just to pay the electric and gas bills for the city.

# **2012 Fiscal Year Overview**

As always, when reviewing the financial condition of the City, it is best to break the discussion into at least two parts – the General Fund or, as it is sometimes called, the Current Expense Fund (CEF) and the Water and Sewer Fund, also referred to as Operation and Maintenance (O&M). The General Fund takes in all aspects of City Government such as Administration, Police, Fire, Public Works, the Renaissance Main Street Program and Community and Economic Development Departments. The final section of the audit strictly deals with the operation and maintenance of the Water and Wastewater Departments (O&M).

# Financial Audit As of the Year Ended June 30, 2012 Management Discussion and Analysis

The first item I would like to address is what I consider our base General Fund revenue – Property and Occupational Tax, Franchise, and License/Permit fees – was actually flat for the 2012 fiscal year. However, this was in keeping with the trend of the last few years as we had seen slowing in the growth of these revenue streams, as has much of the country. The previous year we saw growth of 2.46%, which was a decline from 2010's increase of 7.45% and 5.48% in 2009. Revenue generated from franchise and occupational taxes saw a decline, while insurance premium and property tax revenue saw an almost identical gain.

As for Operations & Maintenance, once adjusting for depreciation Water and Sewer saw a gain of just ovcr 10,000 - a first in over 13 years. However, it should be noted that 2012 was another year of basic maintenance expenses of over \$60,000, the majority of which would be avoided with the construction of a new Water Treatment facility scheduled to begin sometime in the 2014 fiscal year. This facility would replace the current plant, which is about to reach its 50 anniversary of service to Greensburg and Green County. Without a large financial cushion in place, the City must remain vigilant that the current rate structure is sufficient to cover the cost of operating and maintaining the quality and service of both the water and wastewater systems. This will remain a key to our ability to grow and attract residents as well as business and industry to our community.

# <u>General Fund</u>

ŧ

The City continues to maintain a solid base of working capital. The overall fund balance for CEF increased to \$557,500. This amount is an increase of over \$75,752 from last year. The overall Net Asset Value of the City's CEF or General Government continued to grow by \$103,098 to \$4,840,326 or 2.18%. I think these numbers gives the best picture of the true health and direction of the City's financial picture.

# Water and Wastewater Department (O&M)

With all the work that went on to improve and repair both the Water and Wastewater systems during the 2011 and 2012 fiscal years, it can make it difficult to understand the true financial picture of the Operation and Maintenance system. Overall, Operation and Maintenance appears to have gained approximately \$109,610 on a cash basis in 2012, this was due to the completion of the Wastewater Treatment project and the City being reimbursed for it's out of pocket expenses accrued throughout the project.

In hindsight, this proves the rate increase implemented in 2010 did in fact get us nearly back to a breakeven point – a fact that has now been proven during the 2012 Fiscal year. Again, as stated on many occasions, keeping utility rates at an adequate level to support operation not only makes good business sense, it is a requirement of our existing bond agreements and will continue to be a requirement from the funding agencies as we move forward in our efforts to maintain our current system.

Bottom-line, with all the improvements that have been made to both the water and wastewater systems over the past two years it's easy to understand why the Net Asset Value of the Greensburg Utility System grew by another \$844,667 in 2012.

#### **Report of Independent Accountant**

To the Mayor and City Council Members City of Greensburg, Kentucky

I have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Greensburg, Kentucky, as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Greensburg, Kentucky's management. My responsibility is to express opinions on the basic government-wide financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund of the City of Greensburg, Kentucky, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying management's discussion pages 3 through 12, analysis and budgetary comparison information on pages 52 through 56, and information about infrastructure assets reported using the modified approach on pages 57 through 58 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consist principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

Statement of Net Assets         Primary Governmental           As of June 30, 2012         Governmental         Type           Assets         Covernmental         Activities         Type           Assets         S238,596         S318,936         S357,532           Investments         S238,596         S318,936         S357,532           Investments         S317,310         S16,844         S334,154           Receivables, net of allowance for doubtiful tax collections         S317,310         S16,844         S334,154           Receivables, Net of allowance for doubtiful tax collections         S317,310         S16,844         S339,733           Capital Assets         S10,15         S1,10,15         S1,01,18           Optical Assets         S11,180,996         S2,019,912         S5,019,912           Water and Sewer System         S12,293         S12,293         S12,293           Unamorized Bond Discount         S242,755         S148,456         S270,211           Unamorized Bond Discount         S242,715         S148,456         S12,293           Total Assets         S22,375         S16,621         S62,325           Accumuble, Interfund         S242,715         S148,456         S12,630,195           Labillities         S22,375 <th>City of Greensburg, Kentucky</th> <th></th> <th></th> <th></th>	City of Greensburg, Kentucky

City of Greensburg, Kentucky Reconciliation of the Statement of Revenues, Expenditures, and Changes In Fund Balances of Governmental Funds To the Statement of Activities As of June 30, 2012

Net change in fund balance- total governmental funds Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	\$151,945
Governmental funds report capital outlays as expenditures. However,	
in the statement of activities, the cost of those assets is allocated	
over their estimated useful lives and reported as depreciation expense.	
This is the amount of capital outlays reported in the current fiscal	
year ended June 30, 2012.	\$121,614
Amortization and depreciation is not recognized as an expense in	
governmental funds since it does not require the use of current financial	
resources. The effect of recording the current year's amortization and	
depreciation is to decrease net assets.	(\$133,143)
The proceeds of debt issuance provide current financial resources	
to governmental funds, but the issuing debt increases long-	
term liabilities in the statement of net assets. Repayment of the	
debt principal is an expenditure in the governmental funds, but	
repayment reduces long-term liabilities in the statement of	
net assets. This is the amount by which debt principal was reduced.	\$37,916
The proceeds of debt issuance provide current financial resources	
to governmental funds, but the issuing debt increases long-	
term liabilities in the statement of net assets. Proceeds from incurring	
debt principal is revenue in the governmental funds, but	
incurring the debt increases long-term liabilities in the statement of	
net assets. This is the amount by which debt principal was increased.	(\$75,236)
Rounding	\$2
Change of net assets of governmental activities	\$103,098

# Note A Summary of Significant Accounting Policies

These financial statements of the City of Greensburg, Kentucky (City) were prepared in accordance with accounting principles generally accepted in the United States of America for governmental entities (GAAP). The following summary of the more significant policies of the City is presented to assist the reader in interpreting these financial statements and should be viewed as an integral part of this report.

# **Reporting Entity**

Entity status for financial reporting purposed is governed by Governmental Accounting Standards Board (GASB) Statements No. 14, *The Financial Reporting Entity*, and No. 39, *Determining Whether Certain Organizations are Component Units – an amendment of GASB Statement No. 14.* The GASB is the standard setting body for the establishment of GAAP in governmental entities. Determination of the financial reporting entity of the City is founded upon the objective of accountability. Therefore, these financial statements include the City government (the primary government).

The City of Greensburg, Kentucky was incorporated December 4, 1794. The City operates under a Mayor-Council form of government. The City's major operations include fire and police protection, parks and recreation, and general administrative services. In addition, the City operates a water and sewer system.

The citizens of Greensburg elect a mayor-at-large and six (6) city council members.

The financial statements of the City of Greensburg, Kentucky include the funds, account groups and entities over which the Mayor and Council exercise significant oversight responsibility. Oversight responsibility, as defined by Section 2100 of the Government Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards, was determined based on the City's ability to significantly influence operations, select the governing body, and participate in fiscal management and the scope of public service.

í

## Note A Summary of Significant Accounting Policies (continued)

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

## Government-wide Financial Statements Measurement Focus and Basis of Accounting

The City Government-wide Financial Statements include a Statement of Net Assets and a Statement of Activities and Changes in Net Assets. These statements present summaries of Governmental and Business-type Activities for the City accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets and liabilities, including capital assets as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Assets. The Statement of Activities presents changes in net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which they are earned while expenses are recognized in the period in which they are reported as program revenues for the City are reported in two (2) categories: 1) charges for services, and 2) operating grants and contributions.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Assets have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

The City applies all applicable GASB pronouncements (including all NCGA Statements and Interpretations currently in effect) as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) of the Committee on Accounting Procedure. In addition, the City applies all applicable FASB Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements to its business-type activities.

## Governmental Fund Financial Statements Measurement Focus and Basis of Accounting

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net assets and changes in net assets presented in the Government-wide financial statements. The City has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities

#### Note A Summary of Significant Accounting Policies (continued)

are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the City, are property tax, insurance premium tax, occupational tax, intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

<u>Fund Balance Classification:</u> The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

• <u>Nonspendable</u>: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The City has classified receivables as being Nonspendable.

• <u>Restricted</u>: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The City has classified certain cash accounts as being restricted because their use is restricted by Kentucky Revised Statutes and/or a City Ordinance. Debt service resources are to be used for future servicing of the revenue note and are restricted through debt covenants.

• <u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council. These amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The City did not have any committed resources as of June 30, 2012.

• <u>Assigned</u>: This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Council or through the City Council delegating this responsibility to the City Mayor through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The City has assigned funds for Other Capital Projects that are to be used for the repair and replacement of equipment. No funds have been assigned as of June 30, 2012.

• <u>Unassigned</u>: This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

## Note A Summary of Significant Accounting Policies (continued)

The City would typically use restricted fund balances first, followed by committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds. City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

## Proprietary Fund Financial Statements Measurement Focus and Basis of Accounting

Proprietary Fund Financial Statements include a Statement of Net Assets, a Statement of Revenues, Expenses and Changes in Fund Net Assets, and a Statement of Cash Flows for each major proprietary fund and non-major funds aggregated.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Assets. The Statement of Revenues, Expenses and Changes in Fund Net Assets present increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which they are earned while expenses are recognized in the period.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses are reported as non-operating expenses.

## **Component Units**

There are no governmental component units incorporated in the basic government-wide financial statements. A *component unit* is a legally separate entity that is included in the primary government's financial reporting entity using the criteria of Government Standards Accounting Board Statement No. 14.

## Budgetary Information, Compliance and Accountability

Annual budgets are adopted on a basis consistent with Section 91A .030 of the Kentucky Revised Statutes (KRS) for the general, enterprise fund and the special revenue fund. Budgets for all government activities and business-type activities are adopted on a basis consistent with generally accepted accounting principles. All annual appropriations lapse at fiscal year end.

On or before June 30<sup>th</sup> of each year, the Mayor must present the proposed budget to the City's Council for review. The Council holds public hearings and a final budget must be prepared and adopted no later than July 1<sup>st</sup> of the new fiscal year.

## Note A Summary of Significant Accounting Policies (continued)

The appropriated budget is prepared by fund, function and department. Transfers of appropriations can be made within a City department. The general government function of the General Fund is treated as a department for budgetary purposes and its budget is adopted at the object level. Transfers of appropriations between departments require the approval of the governing council. The legal level of budgetary control is the governing council. Certain supplemental budgetary appropriations were made during the year, which were not considered material.

Budgeted amounts, as amended, in the financial statements are as adopted by ordinances of the City.

## **Encumbrance Accounting**

Encumbrance accounting is a system under which purchase orders, contracts and other commitments for the expenditures of City moneys are recorded as a reservation of budget. The City does not use the encumbrance system of accounting to record and track budgeted expenses.

## Cash and Cash Equivalents

For purposes of the statement of cash flows, the City considers all highly liquid investments (including restricted assets) with a maturity when purchased of three months or less and all local government investment pools to be cash equivalents.

## Investments

Kentucky Revised Statutes authorize the City to invest in obligations of the U.S. Treasury, agencies, and instrumentalities; commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record; bankers' acceptances; repurchase agreements; and the state treasurer's investment pool.

## Accounts Receivable

Amounts due from private individuals, businesses, organizations or other government entities which pertain to charges for services rendered by the City departments are reported as receivables.

Receivables are reviewed periodically to establish or update the provisions for uncollectible amounts. These provisions are estimated based on an analysis for the age of the various accounts. The City records the amount of earned but unbilled revenues for the Water and Sewer Utilities System enterprise funds.

## Notes Receivable

The City General Fund has an agreement with the City Enterprise Fund under which cash was advanced to City Enterprise Fund for the purpose of providing operating capital. The advance, \$62,800, is reported as Notes Receivable in Governmental Activities and Notes Payable in the Business Type Activities, Statement of Assets, net of repayments made during fiscal year end June 30, 2012. No uncollectible allowance has been established for the receivables.

## Note A Summary of Significant Accounting Policies (continued)

#### **Inter-fund Transactions**

Interfund transactions are reflected as loans, services provided, and reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

Inter-fund receivables and payables as of June 30, 2012, are as follows:

	Inter - fund	Inter - fund
	Payables	<b>Receivables</b>
General Fund	\$220,663	\$421,755
Enterprise Fund	<u>349,548</u>	148,456
·	\$570,211	\$570,211

Repayment of the inter-fund account balances is anticipated during the coming fiscal year ended June 30, 2012.

#### Inventories

The City does not maintain inventories for general government operations or the business – type proprietary operations. Materials and goods for the two (2) operations are purchased and expensed as needed.

## **Restricted Assets**

The use of certain assets of general government funds and business - type proprietary funds is restricted by specific provisions of City ordinances, Kentucky Revised Statutes and bond resolutions. Assets so designated are identified as restricted assets in the balance sheet. When both restricted and unrestricted resources are available for use, the City's policy is to use restricted resources first, then unrestricted resources as they are needed. Restricted assets are classified as noncurrent if they are for the acquisition or construction of capital assets, for liquidation of long- term debt or other than current operations.

## Note A Summary of Significant Accounting Policies (continued)

#### **Capital Assets**

Capital assets are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Purchased or constructed assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at estimated fair value at the date of donation. In connection with implementation of GASB Statement No. 34, the City established a threshold of \$1,000 for capitalization of depreciable assets.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized but charged to an expense account in the current year.

Capital assets are depreciated using the straight – line method. The estimated lives of the capital assets being depreciated are based upon the Internal Revenue Service guidelines for corresponding assets.

#### Impairment Loss

General Government Activities and Business – type Activities revenues do not include impairment losses due to the elimination of equipment (net of accumulated depreciation) that was no longer of service for City use.

#### Infrastructure

The City has elected to use the modified approach in accounting for its street network (pavement, drainage, sidewalks, and curbs). The modified approach allows governments to report as expenses in lieu of depreciation, infrastructure expenditures which maintain the asset but do not add to or improve the asset. Additions and improvements to the street network are capitalized. The City uses a pavement rating system to rate street condition and quantifies the results of maintenance efforts.

The condition of street pavement is rated using the Asphalt Institute's Asphalt Pavement Rating Form, which bases ratings on a weighted average of thirteen defects found in pavements. The form uses a measurement scale that is based on a condition index rating from zero for failed pavement to 100 for pavement in perfect condition. The condition index is used to classify roads and streets in seven categories: very good (94-100), good (76-93), fair (64-75), poor (41-63), very poor (0-40). It is the City's policy to maintain at least 80% of its street system in good or better condition.

#### **Operating and Non-operating Revenues and Expenses**

The business – type proprietary fund financial statements distinguish operating revenues and expenses from non-operating revenues and expenses. Operating revenues and expenses are those that result from providing services associated with the principal activities of the respective fund. Primary examples of operating revenues are charges for water and wastewater treatment services of the City's utility system. Operating expenses include the cost of sales and services, administration costs and depreciation expenses.

Non-operating revenues and expenses are all those that do not meet the criteria described previously, and include interest and tax revenues, and debt service expenses.

## Note A Summary of Significant Accounting Policies (continued)

## **Compensated Absences**

÷

It is the policy of the City to permit City employees to accumulate a limited amount of earned but unused leave benefits which will be paid to City employees upon separation from service. Unpaid compensated absences are recorded as a liability when the benefits are earned. The valuation of accrued leave benefits is calculated in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*. The liability is typically liquidated with resources of the same fund that has paid the applicable employee's regular salary and fringe benefits.

## **Fund Balance Reserves and Designations**

Reserves of fund balances in the governmental financial statements and business-type activities financial statements represent portions of funds balance which are not available to be appropriated for expenditures or which have been segregated for specific future uses. The fund balance reserves in governmental funds and business-type activities funds as of June 30, 2012 are for long-term notes, deposits, and debt service reserves. Designations of fund balances of governmental funds and business-types activities funds represent tentative plans for financial resources utilization in a future period. Such designations are subject to change and may never be legally authorized for expenditure or result in expenditures.

Details of unreserved fund balances for governmental funds are as follows:

	Governmental Business-type	
	<u>Activities</u>	Activities
Designated for Subsequent Year's		
Expenditures	· <u>\$845,211</u>	<u>\$411,446</u>

None of the net assets are restricted by enabling legislation.

## Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

# Property Taxes Receivable, Property Tax Calendar and Provision for Uncollectible Real Property Taxes

Property tax (real property) rolls are prepared by the Green County Property Tax Assessors office on property assessed as of the preceding January 1. The assessments are determined in accordance with Kentucky Revised Statutes. The due date collection periods for all taxes exclusive of vehicle taxes are as follows:

ļ	Description	Date per KRS 134.015
•	Due date for payment	Upon receipt
• :	2% discount applies	To November 30

## Note A Summary of Significant Accounting Policies (continued)

	Face value payment period	To December 31
٠	Past due date, 10% penalty	January I
٠	Interest charges	1.0% per month effective January 1

Vehicle taxes are collected by the County Clerk of Green County. Vehicle taxes are due in the birth month of the licensee.

## Note B Deposits and Investments

The City maintains and controls ten (10) cash accounts of the primary government. The cash accounts are as follows:

Cash in bank, checking account (1 non - restricted)	\$181,558
Cash in bank, checking accounts (8 restricted)	41,959
Cash in bank, savings account (1)	15,079
	<u>\$238,596</u>

The City maintains and controls nine (9) cash accounts of the business-type activity. The cash accounts are as follows:

Cash in bank, checking accounts (2 restricted)	\$66,090
Cash in bank, checking accounts (7 non - restricted)	252,846
	<u>\$318,936</u>

The City reporting entity considers highly liquid investments (including restricted assets) with an original maturity of three (3) months or less to be cash equivalents.

## Concentration of Credit Risk

As of June 30, 2012 City funds are deposited in the three local financial institutions, Community Trust Bank, 2%, PBI Bank, 30% and Forcht Bank, 68%.

## Custodial Credit Risk

In accordance with commonwealth law, all uninsured deposits of municipal funds in financial institutions must be secured with acceptable collateral valued at the lower of market value or par. Acceptable collateral includes certain United States Government or Government Agency securities, certain Commonwealth of Kentucky or political subdivision debt obligations, including surety bonds permitted by Kentucky revised Statute (KRS) 41.240(4). As required by 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the City of Greensburg, Kentucky must have a written agreement approved by the board of directors or loan committee.

#### Note B Deposits and Investments (continued)

The carrying value of all City of Greensburg's deposits and investments in Forcht Bank as of June 30, 2012 is \$690,255. At June 30, 2012, the Federal Deposit Insurance Corporation (FDIC) insured the first \$250,000 of the total of deposits at financial intuitions. Total funds deposited in excess of the \$250,000 insured by FDIC are covered by securities pledged for the City of Greensburg. Pledged securities are as follows: Security Original Face Book Value Market Value

<u>Asset</u>	Estimated Life	Depreciation Method
Governmental Activities	5-25 year life	Straight line
Business-type Activity Water and Sewer System	7-30 year life	Straight-line

4

## Note C Capital Assets (continued)

The City elected not to retroactively capitalize the cost of approximately eighteen (18) miles of municipal streets. The municipal streets were constructed prior to fiscal year ended June 30, 1980, and systematic repairs and maintenance have maintained them. The City will continue its policy of expensing the cost of repairs and maintenance to its municipal streets.

The City does not have any capital assets that are considered impaired or idle as of June 30, 2012.

There were no intra - entity transfers of capital assets during fiscal year ended June 30, 2012.

Tangible and intangible property (capital assets) having a cost of \$1,000.00 and more and having an initial useful life that extends beyond a single reporting period are classified as capital assets.

## Note D Receivables

As of June 30, 2012, the Receivables due the City consist of the following:

· · · · · ·	Governmental	Business - Type
	<b>Activities</b>	Activities
Click it or Ticket Grant	\$985

Revenues from the Enterprise Fund (Business - type Activities) were used during fiscal year ended June 30, 2012 to retire long-term obligations of the City.

\$115,779 interest expense is included in Enterprise Fund (Business-type Activities) direct expenses in the statement of activities.

The annual requirements (principal, interest and fees) to amortize the long-term debt outstanding as of June 30, 2012 are detailed on page 45.

## Note F Compliance with Bond Ordinance

The City of Greensburg Water and Sewer Revenue Bonds of 1992 ordinance requires the City to create and maintain separate funds or accounts for the Sewer Fund.

- **Depreciation** This account is to receive from the remaining revenues of the system \$916 each month. The City is in compliance with the ordinance.
- Bond and Interest Sinking This account is to receive, monthly, one sixth (1/6) of the next interest installment and one-twelfth (1/12) of the next annual principal payment. The City is in compliance with the ordinance.

## Note F Compliance with Bond Ordinance

• Operation and Maintenance - This account is to accrue a balance equal to the anticipated requirements for a two-month period. The City is in compliance with the ordinance.

## Note G Risk Management

The City of Greensburg is exposed to various risk of loss to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters. In addition to its general liability insurance, the City also carries commercial risk insurance for all risk of loss such as worker's compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three (3) years.

Amount per Occurrence	Type of Coverage
\$2,000,000	General liability, each occurrence
\$100,000	Damages to rented premises
\$2,000,000	Personal injury
\$6,000,000	General annual aggregate
\$6,000,000	Product liability
\$2,000,000	Automobile liability
\$1,000,000	Excess umbrella liability, each occurrence
\$1,000,000	Excess umbrella liability, aggregate
\$4,000,000	Workers' compensation, statutory
\$2,000,000	Public officials, wrongful act
\$6,000,000	Public officials, annual aggregate
\$2,000,000	Law enforcement, wrongful act
\$6,000,000	Law enforcement, annual aggregate

## **Note H Related Parties Transactions**

In a governmental entity, related parties include members of the governing body (city commissioners, etc.), board members, administrative officials (mayor, city clerk, etc.) immediate family members of the preceding individuals and affiliated governmental units that are not included in the financial statements as part of the reporting entity such as water and sewer systems. There are no related party transactions to be disclosed.

## **Note I Economic Dependency**

The City is not economically dependent on one or more major taxpayers or suppliers.

#### **Note J Pension Plan**

The City of Greensburg is a participating employer of the County Employees' Retirement System (CERS) (a division of the Commonwealth of Kentucky Retirement System), which is a multi-employer defined benefit plan that covers substantially all regular full-time employees of each county, school board,

1

## Note J Pension Plan (continued)

municipal and other local agencies electing to participate. Upon election to participate in the CERS, each employee has the option to participate, however, all subsequent employees must participate and the employer is required to continue participation.

Employees who retire at age 65 and have 48 or more months of credit service or have 27 years of credited service regardless of age are entitled to a retirement benefit, payable monthly for life, equal to 2% of the average annual salary of the members' highest earning years multiplied by the number of years of service credit. Members retiring at less than 55 years of age with 25 to 27 years of service credit or 65 years of age with less than 48 months of service credit are entitled to reduced benefits. Members' retirement benefits become fully vested when they complete sixty months of service, twelve of which are current service. At a minimum, terminated employees are refunded their contributions with credited interest at 3% compounded annually through June 30, 1981 thereafter through June 30, 1986, and 4% thereafter.

Employer contribution rates are intended to fund the System' normal cost on a current basis plus one percent (1%) of unfunded past service cost per annum plus interest at the actuarial assumed rate. The Board of Trustees of Kentucky Retirement Systems determines such contribution rates each biennium.

The amount shown below as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of employee service to date. The measure is the actuarial present value of credited projected benefits and is intended to help the users assess the System's funding status on a going-concern basis, and assess progress made in the public employee retirement system (PERS). The measure is independent of the actuarial funding method used to determine contributions to the System.

The funded status as of the latest valuation date (June 30, 2011) of CERS is as follows:

## County Employees Retirement System (CERS) - Pension Fund

	June 30, 2011	<u>June 30, 2010</u>
Actuarial Accrued Liability (AAL)	\$11,777,126,077	\$11,131,174,187
Actuarial Value of Assets	\$7,409,156,576	\$7,296,321,679

UAAL as a % of Covered Payroll	112.59%	141.85%

## County Employees Retirement System (CERS) - Insurance Fund

	<u>June 30, 2011</u>	June 30, 2011
Actuarial Accrued Values	\$4,721,675,960	\$4,833,043,390
Actuarial Value of Plan Assets	\$2,204,241,067	\$1,985,808,363
Unfunded Liability on Actuarial Value of Assets	\$2,517,434,893	\$2,847,235,030
Funded Ratio on Actuarial Value of Assets	46.70%	41.16%
Covered Payroll	\$2,743,559,808	\$2,703,404,040
UAAL as a % of Covered Payroll	91.76%	105.32%

## Note J Pension Plan (continued)

Contributions required by Commonwealth statute for years ended June 30, 2007, 2008, 2011 and 2012 were as follows:

Fiscal Year	<b>Required</b> Contribution	Percent Contributed
2008	\$136,026	100%
2009	\$112,535	100%
2010	\$129,531	100%
2011	\$151,408	100%
2012	\$185,098	100%

The complete audited financial statements, comprehensive annual financial report and actuarial valuations of the Kentucky Retirement System can be found on line at <u>www.kyrte.com</u>.

## Note K Rent Expense

Effective June 5, 1989, by action of the City Council of Greensburg, Kentucky, the Greensburg Water and Sewer System rents its office facilities from the City of Greensburg at the rate of \$24,000 per year.

## Note L Ownership

The Greensburg Water and Sewer System is a business-type activity of the City of Greensburg.

## Note M Defeasance of Debt

## Series 1993 F Revenue Bonds Restructure

On August 20, 1993 The Kentucky Infrastructure Authority (KIA) issued Series 1993 F revenue bonds of \$17,805,000 par value to advance refund revenue bonds Series 1989 C with a par value of \$15,220,000. The Series 1993 F revenue bonds were issued at par less \$385,063 in discounts. After paying issuance cost of \$254,618, the net proceeds were \$17,210,319. The advance refunding met the requirements of an in-substance debt defeasance and the refunded revenue bonds were removed as a liability from the City's balance sheet. In the City of Greensburg's portion of the advance refunding, bonds with a par value of \$641,341 were issued less \$13,835 in bond discounts and \$9,148 issuance cost.

Insurance cost	\$254,618
Bond discount	<u>385,063</u>
Financing cost	<u>\$639,681</u>

## Note M Defeasance of Debt (continued)

The source and uses of funds required for the transaction are shown below

	Total	Allocation to
	Revenue Bond	City of Greensburg
Sources		
Principal amount of new debt	\$17,210,319	\$615,687
Financing cost	639,681	25,654
Total source of funds	\$17,850,000	\$641,341
Uses		
Deposit to escrow fund	\$17,210,319	\$528,073
Cost of insurance	254,618	9,148
Bond discount	385,063	13,835
Loss on extinguishment	0	90,285
Total use of funds	\$17,850,000	<u>\$641,341</u>

As a result of the advance refunding, the City realized a loss on extinguishment of \$90,285. The loss is being amortized over the life of the Series 1993 F revenue bonds. A loss of \$4,904 is recognized for financial reporting in the current year ended June 30, 2012.

## Kentucky Infrastructure Authority (KIA) 2005 Restructure of Loan

During the year ended June 30, 2005 Kentucky Infrastructure Authority (KIA) restructured its loan with the City of Greensburg, Kentucky. KIA applied the amount it held as *Debt Service Reserve*, \$162,809, less premium of \$11,272, to the principal of the loan as of July 29, 2004. This restructuring reduced the principal due July 29, 2004 of \$551,537 to a principal of \$400,000.

The City of Greensburg, Kentucky, elected to recognize the restructuring as a gain on the loan restructuring and amortize the gain over the remaining life of the restructured loan, ten and one-half (10  $\frac{1}{2}$ ) years.

	Balance <u>June 30, 2011</u>	Increase	Decrease	Balance <u>June 30, 2012</u>
Bond discount and cost of Insurance, \$22,983, amortized over 22 years	<u>\$3,133</u>	<u>\$0</u>	(\$1,042)	<u>\$2,091</u>
Extinguishment of loss, \$90,285, amortized over 22 years	<u>\$16,387</u>	<u>\$0</u>	<u>(\$4,094)</u>	<u>\$12,293</u>
Gain on restructure of debt, \$162,809, amortized over 10.5 years	( <u>\$87,573)</u>	\$ <u>0</u>	<u>\$8,757</u>	( <u>\$78,816)</u>

## Note M Defeasance of Debt (continued)

See the amortization of defeasance of debt on pages 46, 47 and 48.

## Note N Prior Period Adjustment

Accounting errors were found during the preparation of the financial statements for fiscal year ended June 30, 2012. Ending fund balances in the balance sheet, governmental funds and the statement of revenues expenditures and changes in fund balances, governmental funds had not been in agreement in prior years. Correction of the errors required an adjustment of (\$76,123) or 14.17% of the opening fund balance as of June 30, 2011.

## Note O Date of Management's Review

Subsequent events were evaluated through February 4, 2013, which is the date the financial statements were available to be issued.

The annual requirements (principal, interest and fees) to amortize the long - term debt outstanding as of June 30, 2011 is as follows:

#### Notes to Required Supplementary Information

#### (1) Budgetary Basis of Accounting

While the City reports financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, and disbursements. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented as RSI for each major governmental fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

## Information about Infrastructure Assets Reported Using the Modified Approach

As allowed by GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, the City has adopted an alternative method for reporting costs associated with certain infrastructure assets. Under this alternative method, referred to as the "modified approach," infrastructure assets are not depreciated, and maintenance and preservation costs are expensed. The City capitalizes costs related to new construction, major replacements, and improvements that increase the capacity and/or efficiency of infrastructure assets reported under the modified approach.

In order to use the modified approach, the City is required to:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets.
- Perform and document replicable condition assessments of the eligible infrastructure assets and summarize the results using a measurement scale.
- Estimate each year the annual amount to maintain and preserve the eligible infrastructure assets at the condition level established and disclosed by the City.
- Document that the infrastructure assets are being preserved approximately at or above the condition level established by the City.

A governmental entity that uses the modified approach has to document that it has performed a completed condition assessment of the assets at least once every three years. The City completed a condition assessment as of June 30, 2010 and for the year then ended. That assessment is reported in these financial statements as of June 30, 2012 and for the year then ended.

## Roads

ł

The City applies the modified approach only to the eleven (11) street-miles of roads that are owned by the City and maintained by the City's Streets Department. The goal of the City in conjunction with adopting the modified approach is to develop and provide a cost effective pavement maintenance and rehabilitation program that preserves the City's investment in its road network and enhances public transportation and safety.

## **Measurement Scale**

The condition of road pavement is measured using the City Pavement Measurement System. This system uses a measurement scale that considers the condition of the highways and roads as denoted by a Pavement Condition Index (PCI), ranging from 0 to 100. The PCI is used to classify roads into categories as follows:

Category	PCI Rating Range	Description
Very Good	94 – 100	New or nearly new pavement which provides a very smooth ride and is mainly free of distress. (No maintenance work needed.)
Good	76 - 93	Pavement which provides an adequate ride and exhibits few, if any, visible signs of distress. (Minor maintenance may be needed.)

Fair	64 - 75	Surface defects such as cracking, rutting, and raveling are affecting the ride. (Major maintenance is likely needed.)
Poor	41 - 63	These roadways have deteriorated to such an extent that they are in need of resurfacing and the ride is noticeably rough. (Structural improvements, in addition to major maintenance, are likely needed.)
Very Poor	0 - 40	Pavement in this category is severely deteriorated and the ride quality is unacceptable. (Complete road reconstruction is likely needed.)

## **Established Condition Level**

It is the City's policy to maintain at least 80% of its roads at or above the "good" condition level, and no more than 10% at a "very poor" condition. Condition assessments are performed by geographic district within the City on approximately one-third of the roads each year, achieving a complete condition assessment at least every three years.

## **Assessed** Conditions

The following table reports the percentage of pavement meeting the "very good" and "good" condition ratings, as well as those falling into the "fair" category, as assessed in 2012. No City streets were assessed as "poor" or "very poor". Prior to 2012, the City did not use an asset management system. Therefore, no meaningful comparison of the condition of the City's roads prior to 2012 is available.

Category	2012
Very Good	60%
Good	30%
Fair	10%

During the past five (5) years the City spent the following to maintain City streets, roads and sidewalks:

Fiscal Year Ended June 30,	Expenditures	Budgeted
2006	\$81,592	\$152,574

## Report on Internal Control over Financial Statements and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing* Standards

#### Fiscal Year ended June 30, 2012

To the Mayor and City Council The City of Greensburg, Kentucky

Mayor and Council Members:

P

I have audited the financial statements of the City of Greensburg, Kentucky as of June 30, 2012 and for the year then ended, and have issued my report thereon February 4, 2013. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America.

#### Internal Control over Financial Reporting

In planning and performing my audit 1 considered the City of Greensburg, Kentucky's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing an opinion on the effectiveness of the financial statements, but not for the propose of expressing my opinion on the effectiveness of the City of Greensburg, Kentucky's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the City and poinion on the effectiveness of the City and poinion on the effectiveness of the City and poinion on the effectiveness of the City of Greensburg, Kentucky's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assign functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency or combination of significant deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entities financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weakness. I did not identify any deficiencies in internal control over financial reporting that I consider to be a material weakness as defined above.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Greensburg, Kentucky's financial statements are free of material misstatements, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of the financial statement amount. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my test disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

)

This report is intended solely for the City of Greensburg, Kentucky, management and others within the administration of the City, and the Kentucky Department for Local Government and is not intended to be and should not be used by anyone other than these specified parties.

## Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance With OMB Circular A-133

To the Mayor and City Council Members City of Greensburg, Kentucky

## **Compliance**

I have audited the compliance of the City of Greensburg, Kentucky, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2012. The City of Greensburg, Kentucky's major federal programs are identified in the summary of the auditor's results section of the accompanying schedule of findings and questioned cost. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of the major federal programs is the responsibility of the City of Greensburg, Kentucky's management. My responsibility is to express an opinion on the City of Greensburg, Kentucky's compliance based upon my audit.

I conducted my audit of the compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the *Controller General of the United States; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and *OMB Circular A-133* require that I plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material affect no a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Greensburg, Kentucky's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit dos not provide a legal determination on the City of Greensburg, Kentucky's compliance states.

In my opinion, the City of Greensburg, Kentucky, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2012.

## **Internal Control over Compliance**

The management of the City of Greensburg, Kentucky, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the City of Greensburg, Kentucky's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the City of Greensburg, Kentucky's internal over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or a combination of significant deficiencies, that entity's in more than a remote likelihood that a material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management of the City of Greensburg, Kentucky, Mayor and City Council Members, Kentucky Department for Local Government-Office of Federal Grants and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Grantor Program Title	Project <u>Number</u>	<u>Expenditures</u>
Greensburg Water System Improvements Project Community Development Block Grant CFDA 14.228	001XX03Z	<u>\$764,768</u>

## Notes to the Schedule of Expenditures of Federal Awards for the Year Ended June 30, 2012

## Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") included the federal grant activity of the City of Greensburg, Kentucky under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, local Governments, and Non-Profit Organizations.* Because the schedule presents only a selected portion of the operations of the City of Greensburg, Kentucky, it is not intended to and does not present the financial position, change in net assets or cash flows of the City of Greensburg, Kentucky.

## Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in *OMB Circular A-122, Cost Principles for Non-Profit Organizations,* wherein certain types of expenditures are not allowed or are limited to as to reimbursement. Negative amounts (if any) shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

## Report Local Government Economic Assistance Program City of Greensburg, Kentucky For the Fiscal Year Ended June 30, 2012

To the Mayor and City Council The City of Greensburg, Kentucky

Kentucky Revised Statutes (KRS) 42.455 defines the priority expenditures for funds received from the Local Government Economic Assistance Program (LGEAP). LGEAP is a system of grants to local governments to improve the environment for new industry and improve the quality of life for the residents.

Grants obtained under this program shall be used for priority expenditures. One hundred percent (100%) of all monies in the fund shall be spent on priority categories limited to those described in section KRS 42.455 (2). In no event shall grants obtained under this program be used for expenses related to administration of government.

The City has established a system to track the receipt and disbursement of LGEAP in order to be in compliance with KRS 42.455.

This report is intended solely for the City of Greensburg, Kentucky, management and others within the administration of the City, and the Kentucky Department for Local Government and is not intended to be and should not be used by anyone other than these specified parties.
