INDEPENDENT AUDITOR'S REPORT

To the Mayor and Council City of Ft. Thomas, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Ft. Thomas, Kentucky, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the City of Ft. Thomas, Kentucky, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules of City contributions and net pension liability on pages 5-10 and 44-53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Ft. Thomas, Kentucky's basic financial statements. The schedule of expenditures of federal awards is presented for the purpose of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 2, 2022 on our consideration of the City of Ft. Thomas, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Ft. Thomas, Kentucky's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

As management of the City of Ft. Thomas, Kentucky, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Ft. Thomas, Kentucky for the year ended June 30, 2021.

Financial Highlights

The assets of the City exceeded its liabilities (net position) at the close of the most recent year by \$5,720,026.

As of the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$23,765,732. This total represents an increase of \$4,212,940 in comparison to the prior fiscal year. The increase was primarily attributable to revenues exceeding the budget projections.

At the end of the current fiscal year, total fund balance for the general fund was \$17,604,291 a \$108,641 decrease from the prior fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The basic financial statements encompass three components: 1) government-wide financial statements 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, the increases and decreases in net assets are one indicator of whether the City's financial position is improving or deteriorating. Other nonfinancial factors such as changes in the City's property tax base and the condition of the City's infrastructure will also assist in assessing the overall financial health of the City.

The statement of activities presents how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. As a result, revenues and

expenses are reported in this statement for some items that will only result in cash flows for future fiscal periods (e.g. uncollected revenue and earned by unused vacation leave.)

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes, license fees and intergovernmental activities which are considered governmental activities from those functions that are intended to cover all or a significant portion of their costs through user fees and charges which are considered business-type activities. The governmental activities include most of the City's basic services. These include but are not limited to police, fire, street maintenance, parks and recreation, and general administration.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. Some funds are required to be established by State law. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for grant funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Ft. Thomas maintains individual governmental funds. (Information is presented separately in the governmental balance sheet and in the statement of revenues, expenditures and changes in fund balances for the general fund, public works/KDOT, central business district and Tower Park funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City of Ft. Thomas' own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Ft. Thomas, assets exceeded liabilities by \$5,720,026 at the close of the most recent year.

The largest portion of the City's net position reflects its investment in capital assets (e.g. land, buildings, machinery and equipment), less any related debt to finance those assets that is still outstanding. The City uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resource needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

For the years ended June 30, 2021 and 2020, net position changed as follows:

		Governme	ental A	ctivities
	_	2021		2020
Current and other assets	\$ -	25,055,429	\$	20,300,038
Capital assets, net		20,204,896		16,851,014
Total assets		45,260,325	8.5	37,151,052
Deferred outflows of resources	_	7,628,083		8,722,583
Other liabilities	_	1,234,412		721,880
Long-term liabilities	_	43,291,392		36,156,851
Total liabilities	_	44,525,804		36,878,731
Deferred inflow of resources	_	2,642,578	() () () () () () () () () ()	2,698,304
Net assets:	-		- 10	
Invested in capital assets, net of debt		10,581,146		12,100,651
Restricted		887,105		1,382,504
Unrestricted (as restated for 2019)	-	(5,748,225)		(7,186,555)
Total net position (as restated for 2019)	\$ =	5,720,026	\$ =	6,296,600

Net position of the City decreased by \$576,574 during the current fiscal year, primarily due to change in pension liabilities.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At the end of the current fiscal year, the City's government funds reported combined ending fund balances of \$23,765,732 an increase of \$4,212,940 in comparison with fiscal year FY 2019-20.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the balance of the general fund was \$17,604,291, which represents an decrease of \$108,641 from fiscal year 2019-2020. Key factors in this change are as follows:

Significant activity in funds other than the City's General Fund includes Special Revenue (Public Works/KDOT Fund and Central Business District Fund), Capital Projects (Tower Park Fund) and Other Governmental Funds (Waste Fee and Debt Service). These funds account for the majority of non-operating activity including, but not limited to, capital infrastructure projects, special projects, debt repayment and activity that must be segregated from the General Fund. The Public Works/KDOT Special Revenue Fund included total expenditures of \$935,232, which consisted primarily of road resurfacing and pier walls for road stabilization. The Capital Projects/Tower Park Fund was closed in FY 2021. Significant activity under the Central Business District Fund included debt service for bond issues associated with park improvements and business district revitalization projects, as well as city-sponsored events. The primary source of revenue in this fund is a portion of the city's occupational license fee (.25%), specifically earmarked for infrastructure improvements in the City's business districts. The amount of that transfer for FY2021 totaled \$600,000.

Activity within the Debt Service Fund included total expenditures of \$5,078,079 representing repayment of borrowed funds associated with the CBD revitalization, Towne Center revitalization, building improvements, general obligation bonds and park improvements. Debt was repaid in the amount of \$4,790,363 and interest of \$343,078. New bond proceeds totaled \$10,306,339.

The following schedules present a summary of general, special revenue, debt service and capital projects revenues and expenditures for the fiscal year ended June 30, 2021, and the amount and percentage of increases and decreases in relation to the prior year.

Revenues		FYE 2021 Amount	Percent of Total		FYE 2020 Amount	Percent of Total
Taxes	\$	6,705,793	37.19%	\$ -	6,328,925	38.40%
Licenses and permits		6,663,558	36.95%		6,249,554	37.92%
Intergovernm ental		1,284,348	7.12%		604,747	3.67%
Charges for services		1,974,875	10.95%		1,962,225	11.91%
Fines and forfeitures		105,170	0.58%		91,768	0.56%
Interest		83,411	0.46%		82,461	0.50%
Special assessments		13,238	0.07%		155,102	0.94%
Miscellaneous	_	1,202,142	6.67%	_	1,004,679	6.10%
Total revenues	\$	18,032,535	100.00%	\$ _	16,479,461	100.00%

As in years past, the increase in the Taxes line is mostly due to the increase in property taxes. Intergovernmental revenue increased primarily due to Assistance to Firefighter Grants.

Licenses and permits increased slightly.

			Percent			Percent
		FYE 2021	of		FYE 2020	of
Expenditures		Amount	Total		Amount	Total
General government	\$	1,609,243	6.67%	\$	1,629,167	10.94%
Police		4,203,887	17.42%		3,900,972	26.20%
Fire		4,335,785	17.97%		3,259,126	21.89%
General services		3,692,546	15.31%		3,780,605	25.39%
Recreation		785,845	3.26%		873,635	5.87%
Capital outlay		4,404,477	18.26%		974,523	6.54%
Debt service	_	5,094,151	21.11%	_	473,797	3.18%
Total expenditures	\$	24,125,934	100.00%	\$_	14,891,825	100.00%

The chart above shows that Police and Fire departmental expenditures increased over fiscal year 2019-2020. Most of this can be attributed to increase in pension contributions, although cost-of-living increases did play a small part as well. Capital outlay expenditures increased significantly due to ongoing capital projects such as the City Building, Highland project, and Park Improvement. The debt service expenditures were for payment of old bonds.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the City Council revised the budget. The budget amendment adjusts revenues and expenditures to more closely reflect the anticipated actual revenues and expenditures for the year.

The fiscal year 2020-2021 budget relied primaily on the anticipation of moderate increases in property and payroll taxes and licenses and fees. Actual revenue categories exceeded budgeted amounts by \$834,530. In addition, actual expenditures finished \$155,785 under budgeted appropriations.

DEBT AND CAPITAL ASSET ADMINISTRATION

Debt

At year-end, the City had \$10,145,000 in outstanding bonds and capital leases compared to \$4,750,363 last year. The City issued new bonds of \$10,185,000 and paid \$4,799,363 in outstanding bonds and leases.

			ernmer ctivities	
		2021		2020

(backed by City)		10,145,000		4,750,363
Totals	\$_	10,145,000	\$	4,750,363
		•	-	

In 2013-14, the City adopted Government Accounting Standards Board Statement No. 67 – Financial Reporting for Pension Plans, which requires the recognition of Net Pension Liability. The Net Pension Liability at June 30, 2021 (based on the July 1, 2019 actuarial report) was \$136,960.

In 2014-15, the City adopted Government Accounting Standards Board Statement No. 68-Financial Reporting for Pensions-an Amendment of GASB Statement No. 27. The Net Pension Liability at June 30, 2021 (based on the July 1, 2019 actuarial report) was \$25,397,773.

In 2017-18, the City adopted Government Accounting Standards Board Statement No.75 "Accounting and Financial Reporting for Post employment Benefits Other Than Pension". The net pension liability of June 30, 2021 (based on the June 30, 2019 actuarial report) was \$7,825,377.

Capital Assets

At the end of June 30, 2021, the City had \$37,778,259 invested in capital assets including police and fire equipment, buildings, park facilities, roads and sidewalks. This represents a net increase of \$4,347,379. The majority of this increase came from infrastructure improvements. Construction-in-progress increased \$2,835,327 this year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The City of Fort Thomas Budget for the fiscal year ended June 30, 2021 continued the long-standing goal of providing both efficient City service and the amenities that citizens have come to expect. Through conservative budgeting and judicious spending, the City has come out of the recent pandemic in a position that allows us to continue implementation of our Community plan. This report shows that even with large investment in projects, we are still adding to our reserves and positioning ourselves to continue those investments as necessary. The fiscal year 2021-2022 budget contains additional funds for parks, the City Building, and upgrades in our business districts. It also provides for modest salary increases and replacement of necessary equipment. The City of Fort Thomas has long been fiscally responsible, and that responsibility to the citizens of Fort Thomas is not taken lightly. We're proud of our community and we'll continue working hard to improve the City for future generations.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives and spends. If you have questions about this report or need additional financial information, contact the City Administrator's Office at 130 N. Ft. Thomas, Ft. Thomas, Kentucky.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2021

To the real Ended June 30, 2021	
Net change in fund balances-total governmental funds	\$ 4,212,940
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense: Capital asset purchases capitalized Depreciation expense	4,759,209 (1,338,174)
The effect of disposition of capital assets is a decrease to net assets	(67,153)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(72,330)
Government funds report the effect of issuance costs, premiums, discounts and similar items when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	(40,673)
Accrued interest on long-term debt is reported in the government wide financial statements and not in governmental funds.	102,249
Repayment of debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement net assets. This is the amount of debt principal payments.	(4,873,387)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(2,765)
Change in contributions subsequent to the net pension liability measurement date.	2,702
Government funds report the effect of net pension liability reported as deferred inflows and as deferred outflows.	(1,000,803)
Government funds report the effect of net pension liability expenses based on proportionate share of service cost and calculated pension costs from measurement date to measurement date.	(2,258,389)
Change in net position of governmental activities	\$ (576,574)
The notes to the financial statements are an integral part of this statement.

NOTE A-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City of Ft. Thomas, Kentucky, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies of the City are described below.

Financial Reporting Entity

The City of Ft. Thomas is a municipality governed by a mayor and six-member council. As required by U.S. generally accepted accounting principles, these financial statements present the government and its component unit entities for which the government is considered to be financially accountable.

Blended Component Units

Blended components units, although legally separate entities, are, in substance, part of government's operations and so data from these units are combined with data of the primary government. Each blended component unit of the City has a June 30 year end. The component units discussed below are included in the City's reporting entity because of the significance of their operational and/or financial relationship with the City.

Included within the reporting entity:

City of Fort Thomas Police and Firemen's Pension Fund

All public safety employees who retired prior to February 1, 1988 participate in the Police and Firemen's Pension Fund. The fund functions for the benefit of the retirees and is governed by a five member board of trustees, the mayor, a member of the legislative body, the finance director and two public safety retirees. The City is obligated to fund all costs based upon actuarial valuations.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which direct expenses of a given function or segments are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as an expenditure. Proceeds of long-term debt are rec-

June 30, 2021

orded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure. The beginning net position has been restated to reflect GASB 67, financial reporting for pension plans.

Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related of the cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The government reports the following funds of the financial reporting entity:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specific purposes.

The capital project funds are used to account for financial resources to be used for the acquisition and construction of major capital facilities.

The debt service fund accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the City.

The fiduciary fund is used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds in the City. These funds are not presented in the government-wide financial statements.

Assets, liabilities and net assets or equity

Cash and Cash Equivalents

Cash and cash equivalents including amounts in demand deposits as well as short-term investments with an initial maturity date within three months of the date acquired by the City.

The City is authorized by state statute to invest in:

June 30, 2021

- 1. Obligations of the United States and of its agencies and instrumentalities;
- 2. Certificates of deposit
- 3. Bankers' acceptances
- 4. Commercial paper.
- 5. Bonds of this state or local governments.
- Mutual funds.

Investments

In accordance with GASB Statement 31, investments held at June 30, 2021 are recorded at fair value based upon quoted market prices. (Level 1)

Property Tax Receivable

Property taxes are levied as of July 1 on property values assessed on January 1. The taxes are billed on approximately October 1 and are due and payable on October 31. On November 1, the bill becomes delinquent and penalties and interest may be assessed by the City. A lien may be placed on the property on November 1. Property tax rates for the year ended June 30, 2021 (2020 tax year) were \$0.397 per \$100 valuation for real estate and \$0.397 personal property. The taxable assessed value of property on which 2020 was based was \$1,468,338,413.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from/to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund receivables/payables".

Capital Assets

Capital assets are reported in the governmental activities column of the government-wide statement of net position.

The accounting and reporting treatment applied to capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the City as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized (recorded and accounted for) in the government-wide financial statements. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for capital assets are historical costs, or where historical cost is not available, estimated historical cost based on replacement cost. Prior to July 1, 2000, governmental funds infrastructure assets were not capitalized. These assets (back to July 1, 1980) have been valued at estimated historical cost.

June 30, 2021

Capital assets used in operations are depreciated over their estimated useful lives using the straight-line method in the government-wide financial statements. Depreciation is charged as an expense against operations and accumulated depreciation is reported on the respective balance sheet. The range of lives used for depreciation purposes for each fixed asset class are as follows:

Buildings	40 years
Building Improvements	10-20 years
Public Domain Infrastruture	20-30 years
Vehicles	5 years
Office Equipment	3-5 years

Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused sick pay benefits. There is a liability for unpaid accumulated sick leave since the government does have a policy to pay amounts when employees separate from service with the government. There is also a liability for vacation pay that has been approved for carryover by the City's Administrative Officer. The total liability for these types of compensated absences is reported in the government-wide financial statements.

Long-Term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as revenue and payment of principal and interest reported as expenditures. The accounting for the proprietary fund is the same in the fund statements as it is in the government-wide statements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report as a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/Expenditure) until then. The government only has one item that qualifies for reporting in the government-wide statement of net position, a deferred charge on debt. This amount is deferred and amortized over the life of the debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government only has one type of item, which

June 30, 2021

arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Fund Balance Policies

Net assets is the difference between assets and liabilities. Net assets invested in capital assets. net of related debt are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets.

In the fund financial statements, government funds report components of fund balance for amounts that are nonspendable, restricted, committed, assigned or unassigned:

Nonspendable fund balances arise when resources cannot be spent because of their form and because resources must be maintained intact.

Restricted fund balances arise when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Committed fund balances are those that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, which, for the City is the Council, The Council must approve the establishment (and modification or rescinding) of a fund balance commitment.

Assigned fund balances are those that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned fund balance is the residual classification for the general fund. The classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund.

Restricted, committed and assigned amounts can only be used when expenditures for the amounts set aside for that specific purpose are incurred. Otherwise, the unassigned fund balance amount will be used.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, governmental funds are classified as follows:

Governmental funds – by character

Current-further classified by function

Debt service

Capital outlay

In the fund financial statements governmental funds report expenditures of financial resources.

June 30, 2021

Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/ expenses in the fund that is reimbursed.

Restricted Revenues

When there are restricted and unrestricted revenues in a program, the City's policy is that the restricted revenues are expended first.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenditures. Actual results could differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through June 2, 2022, which is the date the financial statements were available for review.

NOTE B-STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- A. In accordance with City ordinance, by May 31, the Mayor submits to the Council, a proposed operating budget on the modified accrual basis of accounting for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
- B. A public meeting is conducted to obtain citizen comment.
- C. By July 1, the budget is legally enacted through passage of an ordinance.
- D. The Mayor is required by Kentucky Revised Statutes to present a quarterly report to the Council explaining any variance from the approved budget.
- E. Appropriations continue in effect until a new budget is adopted.
- F. The Council may authorize supplemental appropriations during the year.

Expenditures may not legally exceed budgeted appropriations at the function level. Any revisions to the budget that would alter total revenues and expenditures of any fund must be approved by the Council; however, with proper approval by the Council, budgetary transfers between departments can be made. The Council adopted one supplementary appropriation ordinances. All appropriations lapse at fiscal year end.

NOTE C-DEPOSITS AND INVESTMENTS

Custodial credit risk – deposits. For deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned. The City maintains deposits with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC). As allowed by law, the depository bank should pledge securities along with FDIC insurance at least equal to the amount on deposit at all times. As of June 30, 2021, the City's deposits are entirely insured and/or collateralized with securities held by the financial institutions on the District's behalf and the FDIC insurance, as required by state legal requirements.

As of June 30, 2021, the City had the following investments: Certificates of Deposit and Municipal Bonds, fair value \$2,756,066, with a maturity from 08/06/21 to 9/01/23. Interest rate risk is limited and credit risk is within the City's investment policy. For investments, custodial risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of the investments that are in the possession of an outside party. The City has custodial risk at June 30, 2021 in the amount of \$2,756,066 for its certificates of deposit. All cash and investments are Level 1, quoted prices in active markets for identical assets.

NOTE D-CAPITAL ASSETS AND DEPRECIATION

Capital assets activity for the year ended June 30, 2021 was as follows:

		Balance June 30, 2020	. 9	Additions	i i	Retirements/ Deletions	7 <u>.</u>	Balance June 30, 2021

NOTE E-LONG-TERM DEBT

Capital Lease Obligations

The capital lease obligations are payable from general revenues of the City.

Long-term debt outstanding at June 30, 2021 for the capital leases consisted of the following:

Capital Lease Payable – 2020 F

The City entered into a \$10,185,000 capital lease agreement on October 29, 2020 with the Kentucky Bond Corporation to refund the Parks and Midway issues and finance the City Building renovation. The lease payable is for a period of thirty years with interest rates of 3.00%.

Annual debt service requirements to maturity are as follows:

Year Ending		
June 30		Amount
2022	\$	695,462
2023		693,600
2024		696,413

Totals \$ 36,156,851 \$ 12,446,454 \$ 4,790,363 \$ 43,812,942 \$	365,000

NOTE F-CLAIMS AND JUDGMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

NOTE G-EMPLOYEE RETIREMENT SYSTEM

County Employees Retirement System (CERS)

City employees who work at least 100 hours per month participate in the County Employees Retirement System (CERS). Under the provisions of Kentucky Revised Statute 61.645, the Board of Trustees of Kentucky Retirement Systems (KRS) administers the CERS.

The plan issues separate financial statements, which may be obtained by request from Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601.

General Information about the Pension Plan

Plan Description - CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in non-hazardous and hazardous positions of each county, City, and school board, and any additional eligible local agencies electing to participate in CERS. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Prior to July 1, 2009, cost-of-living (COLA) adjustments were provided annually equal to the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year, not to exceed 5%.

Effective July 1, 2009, and on July 1 of each year thereafter, the COLA is limited to 1.5% provided the recipient has been receiving a benefit for at least 12 months prior to the effective date of the COLA. If the recipient has been receiving a benefit for less than 12 months prior to the

effective date of the COLA, the increase shall be reduced on a pro-rata basis for each month the recipient has not been receiving benefits in the 12 months preceding the effective date of the COLA. The Kentucky General Assembly reserves the right to suspend or reduce the cost-of-living adjustments if, in its judgment, the welfare of the Commonwealth so demands. No COLA has been granted since July 1, 2011.

Non-hazardous Benefits – For members who began contributing to CERS prior to September 1, 2008, final compensation represents the average fiscal year of earnings with the highest monthly average used when calculating your retirement benefit. Final compensation is based on the 5-high creditable compensation years with a minimum of 48 months and a minimum of five fiscal years. Final compensation is determined by dividing the total salary earned during the 5-high years by the number of months worked, then multiplying by twelve. Non-hazardous members, age 65 or older, or with 27 or more years of service are eligible to retire and receive unreduced benefits. Any non-hazardous member, age 55, with a minimum of five years of service may retire with a reduction in benefits.

For non-hazardous members who began contributing to CERS on or after September 1, 2008, any member age 57 or older, may retire with no reduction in benefits if the member's age and years of service equal 87. In addition, a member, age 65, with at least 60 months of service may retire with no reduction in benefits. A member, age 60 or older, with at least 120 months of service credit may retire at any time with a reduction of benefits.

Hazardous Benefits – For members who began contributing to CERS prior to September 1, 2008, final compensation represents the average fiscal year of earnings with the highest monthly average used when calculating your retirement benefit. Final compensation is based on the 3-high creditable compensation years with a minimum of 24 months and a minimum of three fiscal years. Final compensation is determined by dividing the total salary earned during the 3-high years by the number of months worked, then multiplying by twelve. Hazardous members, age 55 or older, or with 20 or more years of service are eligible to retire and receive unreduced benefits. Any non-hazardous member, age 55, with a minimum of five years of service may retire with a reduction in benefits.

For hazardous members who began contributing to CERS on or after September 1, 2008, any member age 60 or older with 60 months or service or a member with 25 years of service, may retire with no reduction in benefits. In addition, a member, age 60 with at least 60 months of service may retire with no reduction in benefits. A member, age 60 or older, with at least 120 months of service credit may retire at any time with a reduction of benefits.

Non-hazardous Contributions - For the year ended June 30, 2021, all plan members who began participating before September 1, 2008, were required to contribute 5% of their annual creditable compensation. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 61.565(3), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. For the year ended June 30, 2021, participating employers contributed 24.06% of each employee's creditable compensation. The actuarially determined rate set by the Board for the year ended June 30, 2021 was 24.06%

of creditable compensation. Administrative costs of Kentucky Retirement System are financed through employer contributions and investment earnings.

In accordance with House Bill 1, signed by the Governor on June 27, 2008, plan members who began participating on, or after, September 1, 2008, were required to contribute a total of 6% of their annual creditable compensation. Five percent of the contribution was deposited to the member's account while 1% was deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h) in the Pension Fund (see Kentucky Administrative regulation 102 KAR 1:420E). Interest is paid each June 30 on members' accounts at a rate of 2.5%. If a member terminates employment and applies to take a refund, the member is entitled to a full refund of contributions and interest; however, the 1% contribution to the 401(h) account is non-refundable and is forfeited. For plan members who began participating prior to September 1, 2008, their contributions remain at 5% of their annual creditable compensation.

In accordance with Senate Bill 2 signed by the Governor on April 4, 2013, plan members who began participating on, or after, January 1, 2014, were required to participate in the Cash Balance Plan. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Non-hazardous members contribute 5% of their annual creditable compensation and 1% to the health insurance fund which is not credited to the member's account and is not refundable. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of the member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. A member's account is credited with a 4% employer pay credit. The employer pay credit represents a portion of the employer contribution.

Contributions to the non-hazardous pension plan from the City were \$429,152 for the year ended June 30, 2021.

Hazardous Contributions – For the year ended June 30, 2021, all plan members who began participating before September 1, 2008, were required to contribute 8% of their annual creditable compensation. The state was required to contribute at an actuarially determined rate. Per Kentucky Revised Statue Section 61.565(3), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. For the year ended June 30, 2021, participating employers contributed 39.58% of each employee's creditable compensation. The actuarially determined rate set by the Board for the year ended June 30, 2021 was 39.58% of creditable compensation. Administrative costs of KRS are financed through employer contributions and investment earnings.

In accordance with House Bill 1, signed by the Governor on June 27, 2008, plan members who began participating on, or after, September 1, 2008, were required to contribute a total of 9% of their annual creditable compensation. Eight percent of the contribution was deposited to the member's account while 1% was deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h) in the Pension Fund (see Kentucky Administrative regulation 102 KAR 1:420E). Interest is paid each June 30 on members' accounts at a rate

June 30, 2021

of 2.5%. If a member terminates employment and applies to take a refund, the member is entitled to a full refund of contributions and interest; however, the 1% contribution to the 401(h) account is non-refundable and is forfeited. For plan members who began participating prior to September 1, 2008, their contributions remain at 8% of their annual creditable compensation.

In accordance with Senate Bill 2 signed by the Governor on April 4, 2013, plan members who began participating on, or after, January 1, 2014, were required to participate in the Cash Balance Plan. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Hazardous members contribute 8% of their annual creditable compensation and 1% to the health insurance fund which is not credited to the member's account and is not refundable. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of the member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. A member's account is credited with a 7.5% employer pay credit. The employer pay credit represents a portion of the employer contribution.

Contributions to the hazardous pension plan from the City were \$1,456,272 for the year ended June 30, 2021.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the City reported a liability of \$5,211,555 for its proportionate share of the net pension liability for non-hazardous and \$20,186,218 for hazardous. The City's net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2020, the City's proportion was 0.07 percent for non-hazardous and 0.67 percent for hazardous.

For the year ended June 30, 2021, the City recognized pension expense of \$677,010 for non-hazardous and expense of \$2,100,953 for hazardous. At June 30, 2021 the City reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	GENERAL			
	Defe	erred Outflows	Deferred Inflows	
	01	Resources	of Resources	
Difference between expected and		- -		
actual experience	\$	756,013 \$		
Change in assumptions		969,077	·=	
Net difference between projected and		990,331	405,171	
actual earnings on pension				
plan investments				
Changes in proportion and difference				
between City contributions and				
proportionate share				
of contributions		357,953	813,566	
City contributions subsequent to the				
measurement date	10	1,450,288		
Total	\$	4,523,662 \$	1,218,737	

The \$1,450,288 reported as deferred outflows of resources relating to pensions resulting from the City's contributions made after the measurement date of the net pension liability but before the end of the City's reporting period will be recognized as a reduction of the net pension liability in the subsequent fiscal period rather than in the current fiscal period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ende	d	General	General
June 30		Hazardous	Non-Hazardous
2021	\$	837,235	\$ 192,721
2022		358,338	88,706
2023		123,047	51,779
2024		150,436	52,375
2025		-	
Totals	\$	1,469,056	\$ 385,581

Actuarial Assumptions – The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30 percent

Salary increases 2.0 percent, average, including inflation

Investment rate of return 6.25 percent, net of pension plan investment

expense, including inflation

The Mortality Table for active members is RP-2000 Combined Mortality table projected with Scale BB to 2013 multiplied by 50% for males and 30% for females. The rates of mortality healthy retired members and their beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 multiplied by 50% for males and 30% for females and setback one year for females. For disabled members, the RP-2000 Combined mortality Table projected with Scale BB to 2013 setback four years for males is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2020 valuation were based on results of an actuarial experience study for the period July 1, 2008 – June 30, 2013.

Target Asset Allocation - The long-term expected rates of return were determined by using a building block method in which the best estimated ranges of expected future real rates of return were develop for each asset class. The ranges were combined by weighing the expected future real rate of return by the target asset allocation percentage. The target allocations and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

	CERS No	n-Hazardous	CERS F	Hazardous	
		Long-Term		Long-Term	
	Target	Expected	Target	Expected	
Asset Class	Allocation	Nominal Return	Allocation	Nominal Return	
US Equity	18.75%	4.50%	18.75%	4.50%	
Non-US Equity	18.75%	5.25%	18.75%	5.25%	
Private Equity	10.00%	6.65%	10.00%	6.65%	
Specialty Credit/High Yield	15.00%	3.90%	15.00%	3.90%	
Core Bonds	13.50%	-0.25%	13.50%	-0.25%	
Cash	1.00%	-0.75%	1.00%	-0.75%	
Real Estate	5.00%	5.30%	5.00%	5.30%	
Opportunistic	3.00%	2.25%	3.00%	2.25%	
Real Return	15.00%	3.95%	15.00%	3.95%	
Total	100.00%		100.00%		

Discount Rate – The Single discount rates were based on the expected rate of return on pension investments of 6.25% for each plan. Based on the stated assumptions and the projection of cashflows for each fiscal year ending, the Pension Plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current

plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of the projected benefit payments to determine the Total Pension Liability for each plan. The projection of cash flows used to determine the single discount rate assumes that each fund receives the employer required contributions each future year, as determined by the current funding policy established in Statute, which includes the phase-in provisions from House Bill 362 (passed 2018) that applies to CERS.

401 (h) Subaccount – Based on guidance issued by GASB in connection with BASB Statement No. 74, the 1% member contributions for Tier 2 and Tier 3 members to a 401(h) subaccount is considered as an Other Post Employment Benefit (OPEB) asset. As a result, the reported pension fiduciary net positions as of June 30I, 2017 and later are net of the 401(h) asset balance.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The discount rate used to measure the total pension liability for the system was 6.25% for both, nonhazardous and hazardous. The following presents the net pension liability calculated using the discount rate of percent, as well as what the systems' net position liability would be if it were calculated using a discount rate that is one percentage point lower (5.25%) or one percentage point higher (7.25%) than the current rate for non-hazardous and (5.25%) or one percentage point higher (7.25%) than the current rate for hazardous.

CERS	1% Decrease 5.25%	Current Discount Rate 6.25%		1% Increase 7.25%
Non-hazardous Ft. Thomas percent 0.068	\$ 6,426,982	\$ 5,211,555 \$	3	4,205,136
Hazardous Ft. Thomas percent 0.670	\$ 24,947,291	\$ 20,186,218 \$)	16,299,924

Pension Plan Fiduciary Net Position – Detailed information about the plan's fiduciary net position is available in the separately issued CERS financial report.

NOTE H-POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Insurance Benefits County Employees Retirement System (CERS)

City employees who work at least 100 hours per month participate in the County Employees Retirement System (CERS). Under the provisions of Kentucky Revised Statute 61.701, the Board of Trustees of Kentucky Retirement Systems (KRS) administers the insurance fund for members participating in CERS.

The plan issues separate financial statements, which may be obtained by request from Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601.

General Information about the Insurance Fund

Plan Description – The Kentucky Retirement Insurance Fund (Insurance Fund) was established to provide hospital and medical insurance for members receiving benefits from KERS, CERS and SPRS. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. KRS submits the premium payments to DEI. The Board contracts with Humana to provide health care benefits to eligible retirees through a Medicare Advantage Plan. The Insurance Fund pays a prescribed contribution for the whole or partial payment of required premiums to purchase hospital and medical insurance. The Fund pays the same proportion of hospital and medical insurance premiums for the spouse and dependents of retired hazardous members killed in the line of duty.

Insurance Benefits – For members participating prior to July 1, 2003, the amount of contribution paid for hospital and medical insurance is based on the years of service and respective percentages of the maximum contribution as follows:

Years of Service	% Paid by Insurance Fund
20 or More	100%
15-19	75%
10-14	50%
4-9	25%
Less than 4	0%

As a result of House Bill 290 (2004 Kentucky General Assembly), medical insurance benefits are calculated differently for members who began participating on, or after, July 1. 2003. Once members reach a minimum vesting period of ten years, non-hazardous employees whose participation began on, or after, July 1, 2003 earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Hazardous employees whose participation began on, or after, July 1, 2003 earn \$15 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Upon death of a hazardous employee, the employee's spouse receives \$10 per month for insurance benefits for each year of the deceased employee's earned hazardous service. This dollar amount is subject to adjustment annually, which is currently 1.5% based upon Kentucky Revised Statutes. Dollar contributions for fiscal year 2020 was \$12.99 for non-hazardous and \$20.07 for hazardous. This benefit is not protected under the invoilable contract provisions of the Kentucky Revised Statute 16.652, 61.692 and 78.852. The Kentucky General Assembly reserves the right to suspend of reduce this benefit if, in its judgment, the welfare of the Commonwealth so demands.

Insurance Contributions – Future contributions are projected in accordance with the Board's current funding policy, which includes the requirement that each participating employer in the system contribute the actuarially determined contribution rate, which is determined using a closed funding period (25 years as of June 30, 2019) and the actuarial assumptions and methods adopted by the Board. Current assets, future contributions and investment earnings are projected to be sufficient to pay the projected benefit payment from the retirement system. However, the cost associated with the implicit employer subsidy is not currently being included in the calculation of the system's actuarial determined contributions. It is the understanding that cost associated with the implicit subsidy will not be paid out of the system's trust. Therefore, the munic-

ipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the City reported a liability of \$1,640,255, for its proportionate share of the net OPEB liability for non-hazardous and \$6,185,122 for hazardous. The City's net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB was determined by an actuarial valuation as of that date. The City's proportion of the net OPEB liability was based on a projection of the City's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2020, the City's proportion was 0.068 percent for non-hazardous and 0.669 percent for hazardous.

For the year ended June 30, 2021 the City recognized OPEB expense of \$64,297 for non-hazardous and \$618,951 expense for hazardous. At June 30, 2021, the City reported deferred outflows or resources and deferred inflows of resources related to OPEB from the following sources:

	GENERAL					
	De	Deferred Inflows				
	C	of Resources		of Resources		
Difference between expected and	-					
actual experience	\$	486,301	\$	891,918		
Change in assumptions		1,294,336		7,434		
Net difference between projected and actual earnings on OPEB						
plan investments		545,978		216,903		
Changes in proportion and difference between City contributions and proportionate share						
of contributions		153,932		307,586		
City contributions subsequent to the measurement date		504,557		-		
Total	\$	2,985,104	- \$	1,423,841		

The \$504,557 is reported as deferred outflows of resources relating to OPEB resulting from the City's contributions made after the measurement date of the net OPEB liability but before the end of the City's reporting period will be recognized as a reduction of the net OPEB liability in the subsequent fiscal period rather than in the current fiscal period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

June 30, 2021

Year Ended June 30	Hazardous	Non- Hazardous
2021	\$ 256,262	\$ 78,299
2022	95,614	94,433
2023	195,890	63,543
2024	159,813	65,995
2025	47,527	(671)
Thereafter	F#1	
Totals	\$ 755,106	\$ 301,599

Actuarial Assumptions – The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30 percent

Payroll growth 2.0 percent, average

Investment rate of return

6.25 percent

Health cost trend rates Pre-65 7.09

7.0% for 2020, decreasing to an ultimate trend rate of 4.05% c

period of twelve years

Health cost trend rates Post-65

5.0% for 2020, decreasing to an ultimate trend rate of 4.05% c

period of ten years

Amortization

25 years, closed, with level percentage of payroll

The Mortality Table for active members is RP-2000 Combined Mortality table projected with Scale BB to 2013 and setback one year for females. The rates of mortality healthy retired members and their beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013. For disabled members, the RP-2000 Combined mortality Table projected with Scale BB to 2013 setback four years for males is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2020 valuation were based on results of an actuarial experience study for the period July 1, 2008 – June 30, 2013.

Target Asset Allocation – The long-term expected rates of return were determined by using a building block method in which the best estimated ranges of expected future real rates of return were develop for each asset class. The ranges were combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocations and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

	CERS Insurance Plans						
Asset Class	Target Allocation	Long-Term Expected Nominal Return					
US Equity*	18.75%	4.50%					
Non-US Equity	18.75%	5.25%					
Private equity	10.00%	6.65%					
Specialty Credit/High Yield	15.00%	3.90%					
Core Bonds	13.50%	-0,25%					
Cash equivalent	1.00%	-0.75%					
Real Estate	5.00%	5.30%					
Opportunistic	3.00%	2.25%					
Real Return	15.00%	3.95%					
Total	100%	6.26%					

^{*}Long-term expected real rates of return may vary depending on risk tolerance.

Discount Rate – The single discount rates are based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 3.13%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 28, 2020. Based on the stated assumptions and the projection of cash flows for each fiscal year ended, the plan's insurance fiduciary net position and future contributions were projected to sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on Insurance Plan Investments was applied to all periods of the projected benefit payments paid from the retirement plan. However, the cost associated with the implicit subsidy will not be paid out of the Plan's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The prohjection of cash flows used to determine the single discount rate assumes that funds recive the required employer contributions each future year, as determined by the current funding policy established in Statute as last amended by House Bill 362 (passed 2018) that applies to CERS.

401 (h) Subaccount – Based on guidance issued by GASB in connection with GASB Statement No. 74, the 1% member contributions for Tier 2 and Tier 3 members to a 401(h) subaccount is considered as an OPEB asset. As a result, these member contributions and associated investment income are included in the reconciliation of the fiduciary net positio68

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate - The discount rates of 5.34% for non-hazardous and 5.30% for hazardous were used to measure the total OPEB liability for the system as of June 30, 2020. The following presents the net OPEB liability calculated using the discount rate of percent, as well as what the systems' net position liability would be if it were calculated using a discount rate that is one percentage point lower (4.34%) or one percentage point higher (6.34%) than the current rate for non-hazardous and one percentage point lower (4.30%) or one percentage point higher (6.30%) than the current rate for hazardous:

June 30, 2021

				Current			
			5.34%	Non-hazardous			
CERS	1% Decrease		5.30% Hazardous			1% Increase	
Proportionate Share	\$	2,107,246	\$	1,640,255	\$	1,256,699	
Non-hazardous							
Proportionate Share	\$	8,396,141	\$	6,185,122	\$	4,403,488	
Hazardous							

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rates – For both the non-hazardous and hazardous plans the initial trend rate for Pre-65 starts at 7.50% and is expected to gradually decrease to an ultimate trend rate of 5.00% over a period of 5 years. For both the non-hazardous and hazardous plans the initial trend rate for Post-65 starts at 5.50% and is expected to gradually decrease to an ultimate trend rate of 5.00% over a period of 2 years.

			ŀ	Healthcare			
CERS	19	% Decrease	Т	rend Rate	1% Increase		
Proportionate Share	\$	1,269,967	\$	1,640,255	\$	2,089,607	
Non-hazardous							
Proportionate Share	\$	4,420,070	\$	6,185,122	\$	8,355,101	
Hazardous							

OPEB Plan Fiduciary Net Position – Detailed information about the plan's fiduciary net position is available in the separately issued KRS financial report.

NOTE I-CONTINGENT LIABILITIES

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's Attorney the resolution of these matters will not have a material adverse effect on the financial condition of the government.

NOTE J-RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The City has obtained insurance coverage through a commercial insurance company. In addition, the City has effectively managed risk through various employee education and prevention programs through the efforts and cooperation of its risk manager and department heads. All risk general liability management activities are accounted for in the General Fund. Expenditures and claims are recognized when probable that a loss has occurred and the amount of loss can be reasonably estimated.

The City Attorney estimates that the amount of actual or potential claims against the City as of June 30, 2021, will not materially affect the financial condition of the City. Therefore, the General Fund contains no provision for estimated claims. No claim has exceeded insurance coverage amounts in the past three fiscal years.

NOTE K – INTERFUND BALANCES AND TRANSFERS

The General Fund records a \$670,000 receivable from the Central Business District Fund for funds advanced for construction projects. It records \$102,139 due to the Public Works/KDOT and Central Business District funds for past costs incurred by those funds for the General Fund. The KDOT Fund records a receivable from CBD of \$29,558.

The Central Business District Fund transferred \$457,996 to the Debt Service Fund for payment of the City's debt. The General Fund transferred \$600,000 to the Central Business District Fund representing a .25 percent tax collected by the General Fund on behalf of the CBD. The General Fund transferred \$148,144 to the Debt Service Fund and \$2,364,800 to the CBD Fund for capital improvements. The Tower Park Fund transferred \$444,840 to the CBD fund. The Debt Service transferred \$519,960 to CBD Fund.

NOTE L - COMMITMENTS

NOTE M - COVID 19 GLOBAL PANDEMIC

The primary effects on the City from the COVID-19 Global Pandemic has been a slight reduction in payroll, insurance and occupational license tax revenue received, and an increase in unbudgeted expenses for personal protective equipment. The City management is unsure of a timeline for when, or if, these revenues and expenses will return to pre-pandemic levels. The 2020-21 fiscal year budget has been passed to incorporate the effects of the pandemic on the revenues and expenses.

NOTE N - CARES ACT FUNDING

In response to the Covid-19 Global Pandemic, the City has qualified and been approved for Federal CARES Act funding passed through the Commonwealth of Kentucky's Department for Local Government. This funding has been designated to reimburse the City for payroll expenses for public safety employees during the pandemic. The City has recognized these funds as other financial resources and as an accounts receivable at June 30, 2021.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and Council City of Ft. Thomas, Kentucky

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Ft. Thomas, Kentucky, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Ft. Thomas, Kentucky's basic financial statements and have issued our report thereon dated June 2, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Ft. Thomas, Kentucky's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Ft. Thomas, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Ft. Thomas, Kentucky's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified.

This page left blank intentionally

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Ft. Thomas, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RANKIN, RANKIN & COMPANY

Rankin, Rankint Company

Ft. Wright, Kentucky

June 2, 2022

This page left blank intentionally.

To the Mayor and Council City of Ft. Thomas, Kentucky Ft. Thomas, Kentucky

In planning and performing our audit of the financial statements of City of Ft. Thomas, Kentucky for the year ended June 30, 2021, we considered the City's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit, we became aware of matters that are opportunities for strengthening internal controls and operating efficiency. This letter summarizes our comments and suggestions regarding those matters. This letter does not affect our report dated June 2, 2022 on the financial statements of the City of Ft. Thomas, Kentucky

Comprehensive General Ledger

In past years, the City has used elements of a general ledger system, primarily for recording cash activity during the year. At year end, that system was supplemented with spread sheet journal entries to complete the trial balance for the year. While adequate for arriving at the year end trial balance, (used for preparing the financial statements), we believe that utilizing the full capability of the general ledger system would add to greater efficiency and control over the reporting of various entries during and at the year end. In addition, reconciling the monthly trial balances to monthly records, such as bank reconciliations would make the year end reconciliations easier.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Mayor and Members of City Council City of Ft. Thomas, Kentucky

Report on Compliance for Each Major Federal Program

We have audited the City of Ft. Thomas, Kentucky's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Ft. Thomas, Kentucky's major federal programs for the year ended June 30, 2021. City of Ft. Thomas, Kentucky's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for the compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Ft. Thomas, Kentucky's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Ft. Thomas, Kentucky's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Ft. Thomas, Kentucky's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Ft. Thomas, Kentucky, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

This page left blank intentionally.

Report on Internal Control over Compliance

Management of the City of Ft. Thomas, Kentucky, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Ft. Thomas, Kentucky's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Ft. Thomas, Kentucky's internal control over compliance.

A deficiency in internal control exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with the type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this communication is not suitable for any other purpose.
